From about from mid-2014 through June 2015 he sought medical care and treatment for this from the Richland prison's medical personnel, including being referred to the podiatrist, Dr. Kidd (whose first name is presently unknown) that visited the prison regularly.

17. The RiCI physician tried a series of 3 injections in the heel to address the pain and inflammation, which gave temporary relief only. Dr. Kidd informed plaintiff that the conservative medical treatment was not resolving the heel spur, that he needed surgery on it.

18. Plaintiff saw Dr. Granson as well for the heel spur and plaintiff was told he needed surgery. The request for surgery was filed using the prison administrative procedures, including the Collegial Review but was denied. This happened several times.

19. Plaintiff was transferred to North Central Correctional Complex (NCCC) in September 2015, and to date he has not surgery on the right heel.

Plaintiff learned that defendants Bernard and Doe 1-5 were responsible for making the accusations.
